Primitive as it is, antisemitism is real
+ Thriving

Antisemitism is one of the few forms of
hatred that is espoused by multiple groups
across the political spectrum

The far left, the far right + Islamist extremist
groups, along w/ their supporters + fellow
travellers, all present known threats to
Edn elected officials

There are currently 9 Jewish MPs + 2 Jewish
Senators.

The degree to which they identify as Jewish,
their level of observance or their stance on
the State of Israel should be considered
secondary to the fact that they are Jews +
∴ actively hated by an array of malicious
actors
